

RESOLUTION NO. 12-2019

Harrisburg Redevelopment Authority

WHEREAS, the Redevelopment Authority of the City of Harrisburg ("Authority") Administrative Office requires the upgrading of its staff computers, software and server ; and

WHEREAS, the technical software has become obsolete, unable to handle the current workload and/or failing to operate with current software demands and repairs; and

WHEREAS, RDCS, the Authority's IT Support Service Vendor, has brought to Authority's attention the following:

1. The server is no longer supported by Microsoft and the software is at its End of Life whereas HRA can no longer get updates or support for the server operating system.
 - a. Recommendation: obtaining a new server.
2. The computers are also at end of life as they have Window 7 licenses. This makes them not compatible for other software.
 - a. Recommendation: new computers with Windows 10 will give the most current operating system.
3. The current email system is on a POP3 server which is inherently unsecure and outdated.
 - a. Recommendation: Adding an Office 365 subscription will give you more features, security, and the current email technology. This would be more cost efficient for your business size and needs.

NOW, THEREFORE, BE IT RESOLVED by the Redevelopment Authority of the City of Harrisburg hereby Awards the Contract for the above-referenced computer technical upgrades, as more fully detailed on the attached September 2020 RDCS Proposal, in the amount of \$6,825.69.
